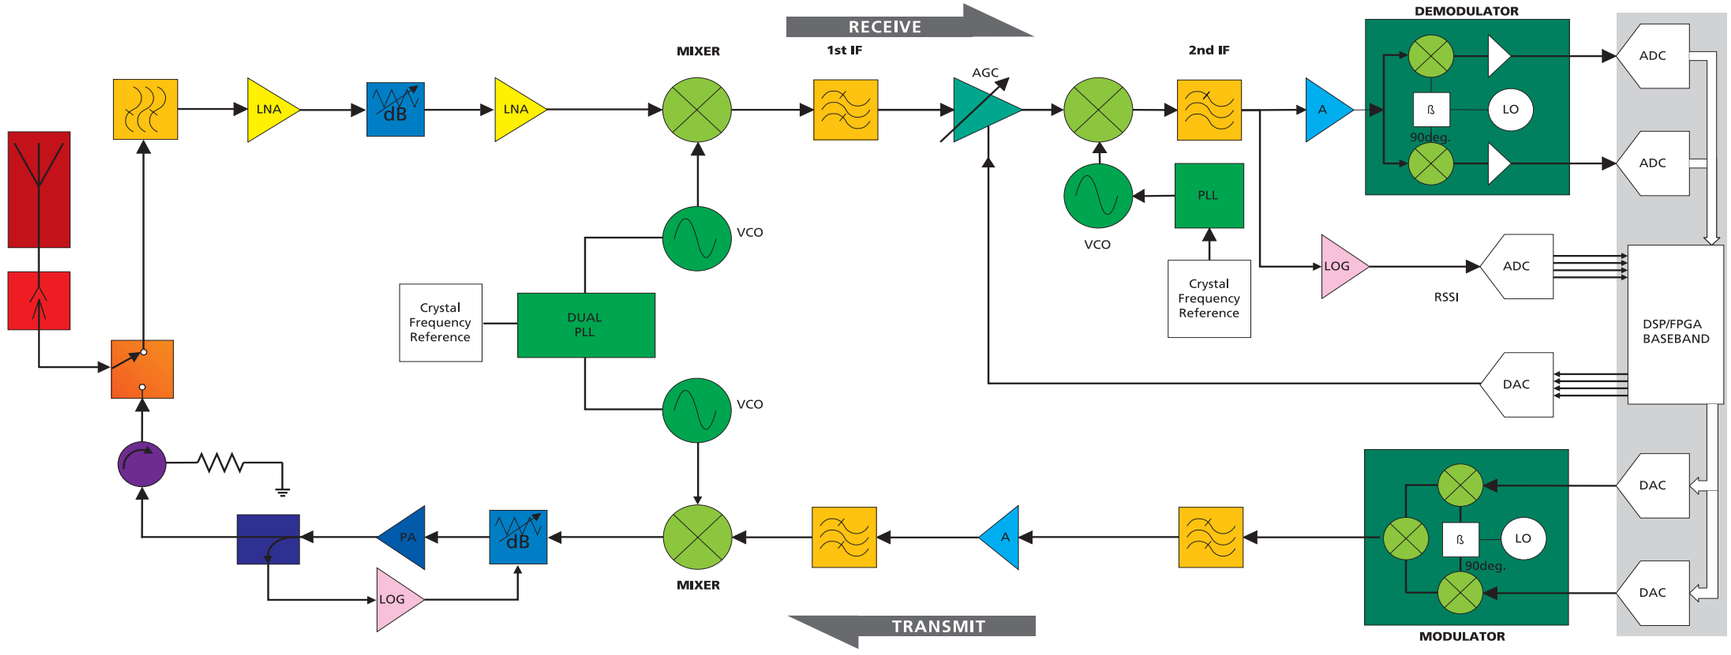
Associative Solution Finder



The Wireless Toolbox

To Help You Sell Wireless

Future Electronics is committed to being a leader in wireless connectivity; a dedicated Marketing/Technical and System Design Center are available to exceed our customers' needs.

As the world goes wireless, customers are demanding full/finished solutions. Your marketing team has a full range of solutions/suppliers and technical support to help meet your customers' needs. The market is changing rapidly so we are actively adding 3rd party suppliers to meet all our customers' software/testing and hardware needs. Please contact marketing with any questions.

Future's Wireless Connectivity web page has updated links to promotions, new design solutions and news from our suppliers. Log on at: www.futureelectronics.com/products/wireless.asp

Looking for Dev tools and access to the Tool Loaner Program? Access Future's engineering resource page at: www.futureerc.com

Need technical help? The doctor is in ~ Email: DoctorRF@FutureElectronics.com

Of course, the WCG (Wireless Connectivity Group) marketing team in Montreal is always available to help answer any questions.

Block Diagram

Use our color-coded RF Transceiver block diagram to select components from our broad line of quality RF manufacturers.
